Late entry - Spoke to Mr Long last night 9 pm hours, re answered questions about my findings during exam. I explained to him that I purposely did not ask pt about any possible assault or other inappropriate contact, as that is should be left to forensic interview. FOC informed me that forensic interview was done, and found no merit to her outcry. I expressed my significant surprise given her behaviors to me and the things she has reported to others. My focus is medical diagnosis + management of her current complaints of anal, vaginal + lower abdom pain, her reflux + dysuria. Along w Blood in Stool, I am very concerned that she could have a significant medical conditions that needs to be
